15 English-taught Master Programmes of Study

Erasmus+ Master Degree Loans are EU-guaranteed loans with favourable pay-back terms that allow students to finance their Master degree studies in an Erasmus+ Programme Country.

The European Investment Fund (EIF) and the University of Cyprus (UCY) have agreed to launch a new pilot scheme, allowing eligible students to use the Erasmus+ Master Degree Loans www.ucy.ac.cy/erasmusplusloan

and to undertake their studies without having to worry about tuition fees and other related costs. Within the framework of aforementioned scheme, students will have to start reimbursing the fees, two years after the completion of their studies. This agreement will support students residing in any of the 32 other Erasmus+ Programme Countries to move to Cyprus and enroll in a Master's degree programme at UCY (www.ucy.ac.cy).

This programme is not applicable to Cypriot residents as well as non-Cypriot students who have earned their Bachelor degree in Cyprus .

UCY will not require any collateral or third party guarantees and will offer the new programme at favourable conditions. The agreement between EIF and UCY is the first of its kind in Cyprus and benefits from the Erasmus+ Loan Guarantee Scheme, funded by the European Union and managed by EIF.
